The Court previously referred this employment dispute to arbitration, including the
delegated question of whether the arbitration could include claims on behalf of a putative class.
Dkt. No. 25. The arbitrator issued a “Clause Construction Award” in which she concluded that the
arbitration agreement does not allow for arbitration to proceed on a class-wide basis. Dkt.
No. 30-2, Ex. D at 8. The arbitrator temporarily stayed the proceedings to allow “any party to
move for a court of competent jurisdiction to confirm or vacate this clause construction award.”
Id. Defendant Caliber Home Loans, Inc. now asks the Court to confirm the award. Dkt. No. 30.
Plaintiff Lyubarsky did not oppose the request, or file any response to it at all.

The Court finds the motion suitable for decision without oral argument. Civ. L.R. 7-1(b).
Because plaintiff has not objected or otherwise responded, the clause construction award is
confirmed.
